A world leader in gases, technologies and services for Industry and Health, Air Liquide is present in 75 countries with approximately 66,400 employees and serves more than 3.8 million customers and patients.

COMPACT

COMPACT size,
more benefits

The COMPACT offer

With smaller dimensions, 300 bar technology, a new cap with built-in regulator and premium gases, the COMPACT offer is designed to adapt to all your welding needs, making your operation easier and simplifying your daily work.

Improved ergonomics and higher mobility

The advantages of the COMPACT offer for B33 cylinders:

- A cylinder with the same capacity as a regular B50 cylinder, but over 25% smaller and lighter
- Easier to handle, guaranteed by the best combination of a smaller cylinder (B33), 300 bar technology and EXELTOP™, ideal for customers with high mobility needs on construction sites or working at heights
- Better ergonomics due to the lower center of gravity and the new EXELTOP™ valve design

EXELTOP™

A new generation valve with two-stage built-in regulator

EXELTOP™ FEATURES	CUSTOMER BENEFITS
The two-stage built-in regulator	Accurate and stable gas flow No need to buy a separate regulator
More precise setting with a new graduated handwheel	Save gas Gain performance
More ergonomic design and shock-absorbing cap	
On/off lever and permanent content gauge	Increased safety, no more exposure to high pressure gas flow and improved ergonomics in the workplace
Quick connect system	

1 Connect the hose

3 Open the on/off lever

2

Check that the graduated handwheel is at zero

4 Set the outlet pressure or flow rate

You are ready to go!
Check the instruction manual for detailed information

Benefits of the COMPACT offer

COMPACT vs. 200 bar technology		
ARCAL™ Prime	B50 ALTOP™ 200 bar	B33 EXELTOP™ 300 bar
Weight empty	71.3 kg	51.5 kg
Height (without valve)	1 533 mm	1 052 mm
Capacity	10.6 m³	10.1 m³

B33 cylinder, the lightest on the market!
