READY BASE

Precast foundation for bulk installations

FEATURES

The right solution for a fast bulk installation

A ready-to-install precast foundation

- A precast reinforced concrete foundation sized to support a cryogenic vessel, vaporizer(s) and other relative standard equipment
- Ready to set up with very limited ground preparation
- No foundation construction in situ requiring concrete curing and civil works

Smartly designed for bulk installations

- Adapted to Argon, Nitrogen, Oxygen and Carbon Dioxide
- Suitable for installations with 3,000 L to 10,000 L capacity vessels
- Relevant for permanent and temporary installations
- Appropriate for almost any surface
- Perfect fit for leased premises

Safe and compliant

- Fits local regulations and norms
- Withstands seismic and wind loads
- Compliant with the most stringent safety standards

THREE STEPS to start up your installation

1 One stop delivery

READY BASE, vaporizer(s) and cryogenic vessel arrive simultaneously at your site.

2 Handling

Our specialized teams handle the material with the appropriate shackles and crane using dedicated anchors to ensure safe delivery.

3 Assembly

All equipment is assembled and settled on the **READY BASE**, waiting to start up.

Your Air Liquide bulk installation is ready to start up in one day!
