

ARCAL™ Prime

The pure solution

The primary gas solution
for a wide range of applications:

- TIG and plasma welding of all materials
- MIG welding of aluminium and copper alloys
- Root shielding of all materials

ARCAL™ Prime

The high-performance gas shielding solution for TIG and MIG welding of all materials

MIG welding of aluminium

TIG welding of stainless steel

Plasma welding of titanium

Reliability

Product quality

- High purity gas $\geq 99.998\%$ Argon.
- Compliant with ISO 14175-11-Ar.
- Very low levels of H_2O , O_2 and N_2 impurities.

Simplicity

Adapts to your processes

- TIG and plasma welding of all materials including the most sensitive ones: aluminium, titanium, zirconium, magnesium and alloys.
- MIG welding of aluminium alloys, suitable to pulsed welding.
- Universal root shielding solution.

Ease of use

- A single product for many welding processes reducing the risk of confusion.

Performance

Weld quality

- High gas purity ensures perfect weld bead soundness.
- Clean weld surface.

ARCAL™ Prime is available with the best supply modes ensuring quality, consistency and ease of use
