

# Maximum control over cylinder management

## SERVITRAX™: an extensively tested and proven cylinder tracking system

SERVITRAX™ solutions is a quality service, developed by Air Liquide, enabling the access to all transaction data and allowing you to improve your stock management while reduce your costs.

### SERVITRAX™ – advanced technology:

- every cylinder has its barcode,
- cylinder technical data are stored in a central database,
- cylinders are trucked through the entire cycle with the use of advanced scanning technology,
- each transaction is recorded in our Information System.

### SERVITRAX™ – information quality:

- fast and unequivocal identification and localization of cylinders,
- exact current stock balance situation,
- historic cylinder transactions and movements, including product information,
- internal check points ensure right gas to cylinder and its maintenance.

### SERVITRAX™ – your benefits:

- precise and transparent invoicing based on real cylinder movements,
- customer quick access to all current and historic transactions,
- automatic stock balance correction - a cylinder lost or exchanged is automatically credited from customer's cylinder stock independently who give back this cylinder,
- optimisation of delivery mode based on historically tracked transactions,
- improved cost control and lower administrative burden.
